

# Quick Guide

## CFX Manager™ Software

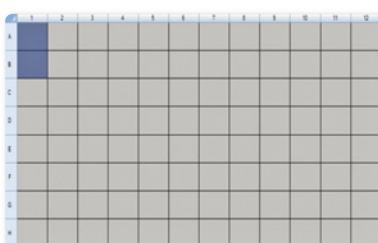

Industrial Diagnostic Edition

359-3893 • For VINEO™ Brettanomytest PCR Tests

VINEO Brett.

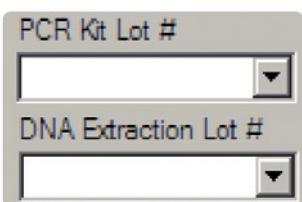

- Open the software to get the **Plate Manager** window or select **View > Plate Manager** in the menu bar

Unknown

- Select the test type **Quantitative** from the drop-down menu
- Select the test you wish to perform from the list of tests on the left side of the screen

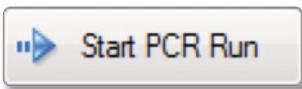

- Select two wells for that assay
- Apply the sample type **QS1** to that selection
- Select one well
- Apply the sample type **Negative Control** to that selection

- Select the wells for your samples
- Apply the sample type **Unknown** to that selection

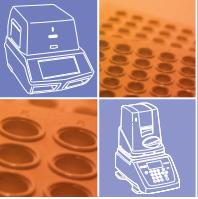

- Type or select **Lot Numbers** (for DNA Extraction Kit, PCR Kits and/or Standards)
- Type or select sample names: select a well to start
- Enter this well's name in the box **Sample Name** on the right
- Hit the **Enter key**  
*The cursor will move to the next well (going down by default)*

- Click **Start PCR Run**

Please read the kit instruction manual and instrument user guide for complete and detailed instructions.
