EQAS Urine Chemistry Program

External Quality Assessment Suited for Your Laboratory

- Compare your laboratory’s results to an international database of participants
- Evaluate and report sample results each month
- All 12 samples for each cycle are provided in a single shipment
- Human urine based samples
- Select from a large menu of basic and specialty urine chemistry analytes
- Laboratory specific reports in an easy-to-read format with online viewing
- Electronic data entry is available
EQAS Reports

Participants receive 12 monthly reports and one end-of-cycle report over each program cycle. All reports are available within three days of the statistical analysis.

Monthly Report (Example)
Detailed individual statistical analyses and peer group comparisons are provided.

End-of-Cycle Report (Example)
An overall assessment of laboratory performance over the entire cycle in terms of bias and imprecision among participating laboratories is presented.

Additional Reports (available on request): Sub-Group Reports, Instrument/Method Summary Report

Analytes for EQAS Urine Chemistry Program

<table>
<thead>
<tr>
