

# Welcome to NABT 2021!

Fly over to **booth #317** to learn what's new and get free teaching goodies!

## **NABT Atlanta Hands-On Workshop Schedule**

Join us at the Atlanta Marriott Marquis, room 106/107, for our free workshops

### **Saturday, November 13** (all in room 106/107)

9:00 – 10:15 AM **Did you really do CRISPR? How good experiment controls let students make real scientific claims.**

*Only a well-controlled experiment lets your students make solid scientific claims. Learn how the controls in Bio-Rad's Out of the Blue CRISPR Kit show students they really did CRISPR!*

10:30 – 11:00 AM **Track the mysterious spread of SARS-CoV-2 using a flexible gel electrophoresis kit.**

*A COVID-19 outbreak at a restaurant made headlines in 2020. How the virus spread was mysterious. Now your students will analyze swab samples by gel electrophoresis and propose an explanation.*

11:15 – 12:30 PM **Catch up on the latest CRISPR tech and do the real thing in your classroom!**

*Hear the latest applications of CRISPR technology in gene therapy and walk through the real gene editing laboratory activity (cut AND repair) in Bio-Rad's Out of the Blue CRISPR Kit.*

*We will be following the NABT COVID-19 guidelines to ensure participant safety.*
