

# Unity Next Peer QC & Sysmex

Experience Bio-Rad Unity Next Peer QC for Sysmex Hemostasis Systems

## Experience Bio-Rad Unity Next Peer QC for Sysmex Hemostasis Systems

Take your laboratory performance to the next level and transform your QC processes with Unity Next Peer QC for Sysmex Hemostasis systems.

Unity Next Peer QC is a peer comparison tool that helps improve QC performance and increase reliability of patient test results. With a modernized, user-friendly interface and Sysmex hemostasis-specific peer groups, labs have the ability to efficiently troubleshoot QC errors and analyze performance. Backed by comprehensive QC data, this platform provides instant access to peer reports—optimizing Quality Control processes and increasing confidence in patient test results.

Sysmex hemostasis solutions bring together advanced technology, trusted reagents and award-winning service to provide laboratories with reliable results for diagnosing and treating their most critical patients. Integrated with Unity Next Peer QC data management systems, gain access to Sysmex hemostasis-specific peer groups to improve confidence in your test results.

### Why Unity Next?

- **Troubleshoot QC errors immediately**—Instantly access peer reports and compare results to efficiently resolve QC errors in real time.

- **Simplicity**—Unity Next Peer QC is equipped with a user-friendly interface. Update QC data and navigate data tables and LJ charts with minimal training. Submit QC data and download peer reports in a centralized location.

- **Comprehensive QC Data**—Access to the world's largest peer groups means more reliable QC results. Unity Next Peer QC leverages QC data from over 29,000 peers for reliable reporting. QC performance can be evaluated across controls, instruments, and peers for reliable patient test results.

# Unity Next Peer QC

## Features

**Instant access to peer reports:** Download peer reports as needed with no delays and troubleshoot QC errors as they arise

**Intuitive dashboard:** User-friendly interface to quickly update QC data and easily navigate data tables and charts with minimal training

**Digital sign-off:** Review, sign and save lab reports digitally for accreditation

**Guided setup:** Save time and easily customize lab configurations and instruments

**Centralized location:** Submit QC data and access lab performance and peer reports in a centralized online location

**Bio-Rad and Sysmex have partnered to bring Unity Next Peer QC, an intuitive QC data management software, to Sysmex Hemostasis systems:**

- Sysmex CA-620

- Sysmex CA-660

- Sysmex CS-5100

- Sysmex CS- 2500

# Partner with Bio-Rad's Experts in Quality Control

## Customer Support

Get your answers from the industry's largest QC support team.

## Education

Learn more from our QC experts with on-site QC training, advanced QC seminars, and more.

## Expertise

Benefit from our 30 year history of developing independent controls for hundreds of diagnostic instruments.
