

Unity Next Peer QC

A simple peer comparison tool to increase reliability of patient test results

Unity Next Peer QC is a peer comparison tool that helps improve QC performance. With an updated, user-friendly interface and large sets of peer data, labs have the ability to efficiently troubleshoot QC failures and analyze QC performance.

Backed by comprehensive QC data, this platform provides instant access to peer reports—optimizing Quality Control processes and empowering labs to make impactful decisions, increasing confidence in patient test results.

Access the world's largest peer program:

38K+

peers

59K+

instruments participating

68M+

QC results processed monthly

500K+

monthly reports generated

Why Unity Next?

- **Troubleshoot QC errors immediately**—Instantly access peer reports and compare results to efficiently resolve QC errors in real time.
- **Simplicity**—Unity Next Peer QC is equipped with a user-friendly interface. Update QC data and navigate data tables and LJ charts with minimal training. Submit QC data and download peer reports in a centralized location.
- **Comprehensive QC Data**—Access to the world's largest peer groups means more reliable QC results. Unity Next Peer QC leverages QC data from over 29,000 peers for reliable reporting. QC performance can be evaluated across controls, instruments, and peers for reliable patient test results.

Unity Next Peer QC

Features

Instant access to peer reports: Download peer reports as needed with no delays and troubleshoot QC errors as they arise

Intuitive dashboard: User-friendly interface to quickly update QC data and easily navigate data tables and charts with minimal training

Digital sign-off: Review, sign and save lab reports digitally for accreditation

Guided setup: Save time and easily customize lab configurations and instruments

Centralized location: Submit QC data and access lab performance and peer reports in a centralized online location

Move to Unity Next

With the guided support of our team, setup is seamless and your QC data is accessible at any time.

Ready to move? Let us know! Visit qcnet.com/unity-next to learn how.

EQAS

An independent, external assessment of laboratory performance in comparison to your peers.

QCNet.com/eqas

Independent QC

Ongoing, proactive, unbiased daily QC that helps identify errors as they occur or begin to trend.

QCNet.com/independentqc

Unity

QC Data Management tools that help you create a strategy to reduce risk and streamline QC workflow.
