

qUAntify® Plus Control System

Data Log - Siemens Multistix®

Month / Year:

/

Level I

Test Method

- Visual
- Clinitek® 10, 50, 100
- Clinitek® 200/200+/500/ATLAS

DO NOT SUBMIT THIS FORM FOR DATA REDUCTION. CALL (800) 824-6665 EXT. 4 FOR QC ENROLLMENT AND DATA ENTRY FORMS

A urine dipstick and microscopic control with peer group comparison

Dipstick	Date																			
	Lot #																			
	Glucose																			
	Bilirubin																			
	Ketone																			
	Specific Gravity																			
	Blood																			
	pH																			
	Protein																			
	Urobilinogen																			
	Nitrite																			
	Leukocytes																			
	Creatinine																			
P.C. Ratio																				
Specialty Tests	hCG: Method Lot #																			
	Acetest® (Ketone): Lot #																			
	Clinitest® (Glucose): Lot #																			
	Ictotest®(Bilirubin): Lot #																			
	Protein (Sulfosalicylic Acid): Lot #																			
	Specific Gravity - Saline 0.85																			
Specific Gravity - H ₂ O																				
Microscopic	RBC / hpf																			
	WBC / hpf																			
	Crystals / hpf																			
	Casts / lpf																			
CLINITEK® Microalbumin	Albumin																			
	Creatinine																			
	A/C																			
INITIALS
