VARIANT™ II HbA$_{1c}$
Quality patient care is at the heart of what you do. And VARIANT™ II HbA1c enables you to be the difference for the patients who count on you most—delivering the best chemistry on the market for exceptionally accurate results.

The Hemoglobin Testing System is flexible, efficient and uses gold-standard, high performance liquid chromatography (HPLC) to deliver exceptionally precise HbA1c values in the presence of hemoglobin variants and other interfering substances.
Your patients count on you. You can count on VARIANT™ II.

**Exceptional Ease of Use**
- Fully automated operation saves time and labor
- Built-in quality control management simplifies quality assurance compliance
- Reagents supplied in convenient kit format
- Readily viewable reagent levels in transparent buffer bottles
- Primary tube sampling with cap piercing eliminates manual sample handling
- Positive sample tracking eliminates sample misidentification
- STAT capability
- Batch sampling and continuous feeding offer flexibility in workflow
- Easy-to-use online tools for QC, instrument support, remote education and communication services
- Capillary Collection Kit allows remote fingerstick sample collection to support outreach programs*

* Not available in the U.S.

**Powerful Data Management**
- Results and chromatograms captured and archived by Bio-Rad’s Clinical Data Management™ (CDM) software
- CDM™ interfaces with your laboratory information system for optimal data management
- Advanced diagnostics, user alerts and prompts reduce costs and training time

Every patient deserves quality results. You deserve ease of use.
HEMOGLOBIN TESTING

VARIANT™ II HbA\textsubscript{1c}

Unparalleled Support

Bio-Rad’s world class service and support team is backed by our decades-long leadership in the field of HbA\textsubscript{1c} testing. The VARIANT™ II represents our continued commitment to helping you be the difference for the patients who count on you.

Uncompromising Performance

VARIANT™ II combines superior HbA\textsubscript{1c} results, exceptional ease of use and powerful data management in one powerful automated solution offering HbA\textsubscript{1c}, β-thalassemia and dual assays.
